

## Odyssey Adventure Club, LLC

### **LIABILITY WAIVER / RELEASE FORM**

Kayaking is often classified as a "soft adventure" but there is always a risk involved. The hazards are difficult to recognize due to the natural conditions of the water in various regions. Even kayaking in shallow water within a lagoon carries a risk if safety procedures are not followed.

It is important for your safety that you are aware of the risk involved with kayaking and that, when you are on the tour, you must pay attention to all instructions and directives given by your guide. Of the same reason it is important that you let us know if you have any disabilities or health problems that may affect your safety and performance during the tour. If you easily get seasick you should avoid kayaking on open ocean.
